Good day to all the families of Aboriginal Head Start, it has been a busy year with a lot of fun and friendships. This is the last month for classes, and then all of our little friends move onto bigger schools and new friends. June will be dedicated to all things water, we will learn the different places you can find it, such as the ocean, lakes, rain, water balloons and what life forms need it (plants, animals, people.).

Last month was incredibly creative and I believe that students were excited to see what I had planned for the day. Doing a unit on different occupations really brought out some imaginative play and silly stories from all kids. We had the chance to play as doctors, construction workers, hairdressers, firefighters, and the class favorite which was pirates! They picked out pirates themselves, and that following day I had set up an obstacle course throughout the class for all the little pirates to search for treasure and play mini games.
