*ECE Language & Culture Teachers:
Tina Liske & Kyanna Sangris*

In the month of February, we had lots of fun learning opportunities. We had an indoor “snow day”, where we played with northern animals in flour. There was also a day where we made goodie bags with cards and a few treats, heart shaped rice crispy treats. Followed by a valentine’s day party. We are on our way to writing our own names, and many of the children can point out the names of our friends which is exciting.

The dene law of this month is “Respect elders and everything around you”. So we will be focusing on family and the environment in order to really understand that dene law. Recycling is an activity the children can take part in and feel proud to do, both at school and at home. The class will explore different types of recycling throughout the month and then keeping up with that system through the year, all while learning what impact recycling has on our environment. It is important that family members also practice this at home.

Important Dates and reminders

- Please send a family photo for sharing circle and activity on March 2nd.
- March 10th we will be going sliding in N'Dilo. Please remember to dress warm!
- Last day of school is Thursday March 11th, we will return on March 29th.
